Hair Extensions

All new Moroccanoil Styling Gel with medium hold, infused with argon oil to create that sleek and structured look. It also adds shine for a healthy looking finish.

## Sexy Long Hair at Pino's!

Get ready for fall weather with long, beautiful hair. Our Great Lengths hair extensions can give you a beautiful natural look or a completely different fun look.

Great Lengths only uses 100% human hair of the best quality so you don't have to worry about unnatural extensions. The technique is much different from other hair extensions that you may get from other salons or basement salons. We use a very durable and gentle bonding technique to secure the extensions to your hair and do not damage your natural hair.

The Great Lengths hair is easy to match your hair colour because they make so many different

shades to accommodate every client. No need to do a drastic hair colour change to achieve that long look that you want. You can get shades from platinum blonde to black. Extensions aren't only for length; try out different colours to create a trendy new look. We have so many different options; fantasy colours, pastel colours, they even have ombré strands! (See photo above).

Depending on the look you want, we can do it here at Pino's. Pino and Sarah are both certified and very talented. It's very important to thoroughly research salons in order to find one with experience, proper technique and reputable products before deciding to begin the extension process.

Come in for a consultation and talk to our stylists about our hair extensions! It doesn't hurt to ask.

Also new with Moroccanoil is the Heat Styling Protection spray. This spray protects against thermal damage. It also strengthens your hair and creates soft hold and shine.

Ask your stylist about it!

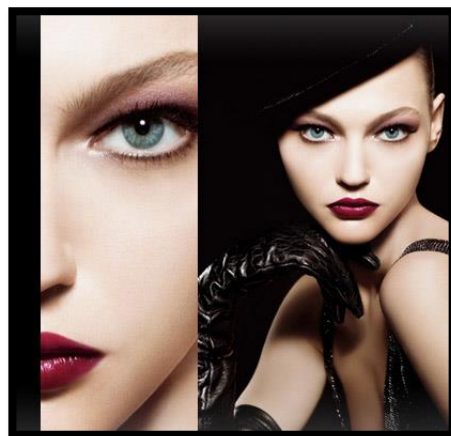

All new Kaaral Style Perfetto Forte finishing spray! This spray is perfect for finishing those softer styles which won't give you a hard look. Forte is an aerosol spray and has a medium hold.

Try one of our delicious Cappuccinos while you are relaxing and enjoying our services here at Pino's. A Cappuccino is actually a really healthy snack choice and will help you with your alertness while also satisfying your craving for a hot beverage. It is perfect for the fall and winter months and will help you stay focused on daily tasks. We make amazing cappuccinos!

## Braids with a Twist

Moroccanoil's Artistic Director Antonio Corral Calero has kept an eye open for the trends of 2013. We've seen braids all over the red carpet this year and they seem to be an on-going trend for this fall. One braid that he's a fan of is the messy fish tail braid. (See photo below) This style is easy to do on your own and takes little time for your busy schedules. It's also great for a night out or even if you're just hanging out with a few friends.

## Dramatic, Sexy Lips

Step outside the box this fall and try a dramatic lip colour. You may think "Oh no, I can't pull that off" but you never know until you try! It may take some getting used to but you'll learn to love a bold lip. For this fall 2013 many designers are using different hues of red, but they're favourite this year is a wine-coloured lip. The bold wine-colour gives you a dramatic, sexy look that you and everyone else will love. Book a full hour make-up lesson and our estheticians will show you how to enhance your beauty while making a statement.

### Health Tip:

#### Another Way to Achieve those Pearly Whites

Next time you pick up a pack of gum at the grocery store, re-think the flavour you usually get. Studies show that cinnamon-flavoured gum reduces bacteria in the mouth, giving you those white teeth you've always wanted. The reasoning is, it contains cinnamic aldehyde which is a plant essential oil that prevents the growth of a cavity created by bacteria. So once and a while pick up some cinnamon flavoured gum and your teeth will thank you!

## Pino's Staff Updates!
